COLLEGE OF ARTS AND SCIENCES
UNDERGRADUATE REPEAT RULE

I wish to repeat the following course(s) taken at the University of Miami in which I received a grade of D+ or lower. Up to two courses taken at the University of Miami may be repeated under this rule. Each course repeated must be the same course as the course initially taken, must be completed within 2 regular semesters (fall/spring) of enrollment after the semester in which the initial course was taken, and must be repeated at the University of Miami. I also understand that no course may be repeated more than once. For each repeated course, only the second grade, whether higher, or lower than the initial grade, will be used in the computation of the student’s GPA. The initial course will not count as credit hours attempted or earned, although the initial course grade will remain on the student’s permanent record.

Grades in CaneLink following the semester in which the course is retaken will not immediately reflect the new cumulative GPA. This calculation is done after grades are posted in CaneLink. Students can check in CaneLink 30 days after grades are issued to see if the cumulative GPA has been recalculated.
